## CHEAP TRANSPORTATION.

Funding the Canal Debt To Be Op-posed—A Railway Commission Urged lays on Railroads and the Damage to Merchants.

The Board of Managers of the New York Cheap ortation Association met yesterday afternoon at the rooms in Pearl street. The meeting

lengthy and important one. The President, Mr. B. P. Baker, read an address on the question of terminal facilities, in which was

I would recommend that your committee on Terminal Pacilities be instructed to give their views on this subject more in detail than are found in their last report, and conter with the Committee on Legislation; and that they jointly, at an early day, prepare suitable bills for introduction into our Legislature, if they deem expedient, with a view of developing the system of cheap transportation around and across our city, and giving us suitable warehouse facilities on our water front.

The Tracuper, stated, that in the traceury of

The Treasurer stated that in the treasury at present there remained some \$2,416.

It was decided that a committee of twelve go to Albany on Thursday next to urge the passage of the bill creating a railroad commission. Among the committee named are Frankin Edson and H. B. Claffin.

The following resolutions concerning the funding of the canal and general fund debts were passed condemning the proposed measure:—

Resolved, That the New York Cheap Transportation Association respectfully and carnestly protest against the passage of the proposed amendment to the constitution relative to innaing the canal and funding debts now charged on the canals. Resolved, That the foregoing resolution be forwarded to the President of the senate and to the Speaker of the Assembly at Albany, with a request that the same be laid before their respective houses.

In the discussion which took place upon this Mr. F. Edson, the President of the Produce Exchange, said that the delays on the railways were very onerous and sometimes caused great loss to the shippers. There are complaints every day; and there was no greater cause of embarrassment in trade. The delays are frightful.

Mr. Drake said that Mr. Carlos Cobb had recently made claims, and that they did not seem in the way of adjustment. The railroads promised that they would do things squarely, and, when it came to the point, they got out of it and managed to avoid responsibility.

Mr. Thurber said that the only way was to have exclusive freight lines and elevators in New York. The following are the letters referring to this matter:—

Mr. Hill, of the Committee on Terminal Facilities,

The following are the letters referring to this matter:—
Mr. Hill, of the Committee on Terminal Facilities, said that correspondence was in progress with four of the main roads regarding the objects of the association. Mr. —, of the Committee on Claims, said that several of these claims were in process of adjustment.

Mr. Theodore F. Lees read a long paper proving that the neglect of means of transportation, dockage, and harbor facilities is the fruitful cause of the loss of commercial prosperity to cities, and proved his case by naming Venice, Antwerp, &c., of old; and argued that it New York, with her unsurpassable facilities, did not move to make some improvements in this way she would lose her commercial precedence in America.

After the passage of a few unimportant resolutions the meeting adjourned.
